The Petro sum market was firm during the merring at all points, and there were offere to they along the creek between Petroleum Ocetre and Oil City, at \$6.16, and at points north of the former p see at \$6.00. At Pleasantellib the definant at \$6.00 at the wells during the fore part of the day was good, but only a few sales of carred as alters were holding a prices from ten to tweety cents better. In the afternoon the feeling broke at points moth of Petroleum Chutre, and the offering prices were lowered, but at this is pace and at Oil City, and extermediate points the feeling continued without all exition from that of the morning, and late in the aft is most fail piece were being offered. At the closuit was not price that one of the dealors was offering a 2,000 bit it tot at \$6.85 at @nuarille. The sales aggregated do no bibs and included 600 for Clempland, 600 for local second, and a 2,000 bit is not a \$6.00 for Puttaburgh and Oil City.

The market sidual, and rates are weak. Buyers as cauto is an effectors are any one. The transections are igh and the stock of Method from the West is donnishing. RUE'S PATENT INJECTOR

BOILERS. The undersigned has the exclusive agency for acting RUE'S PATANT INJECTOR for Northwestern Francyts ands. By the use of this ingesions appliance, the necessity of a heater and pump is obviously, as it will heat and inject into abovier 5 to twenty-five gallons of water per minute, seconding to the size of injector used. It can be consecuted without difficulty and will not get out of order. It can be seen in operation at Bryon, sattingham & Ca.'s Shous in this city, and at the Monitor Oil Works, Petrolsum Centre.

PETROLEL VIRON WORKS,
TITCSVILLE, Jan. 19, 1889.

T. McCAMBRIDER, Esq. DEAR Sin:—We have one of Samuel Rue & Co.'s patent injectors in use in our establishment for the last six nonths, and we take pleasure in saying that i gives entire satisfaction, and would recommend it to all parties. It is simple in its construction and its working is as easily understood as the common force pump, it never gets out of order and is always ready to pour water into the boller

required.
